👥 Audience

🕐 **Peak hours:** 21:00 (924 active), 22:00 (894 active), 20:00 (869 active)

🔄 Cross-Platform Comparison

⚠️ **Note:** Instagram rate = interactions ÷ reach. TikTok rate = interactions ÷ views. Different denominators — not directly comparable.

Platform	Posts	Reach	Engagement	Avg Rate	Benchmark	vs Bench
📸 Instagram	34	26,130	4,986	19.1%	2.0%	+17.2%
🎵 TikTok	15	423,133	59,968	9.2%	2.5%	+6.7%

💡 Recommendations

🔴 **[Content]** On Instagram, your best content type is 'short_video' with 20.5% avg engagement (8 posts). Create more of this.

🔴 **[Content]** On TikTok, your best content type is 'short_video' with 9.2% avg engagement (15 posts). Create more of this.

🔴 **[Content]** Viral content on Instagram is: short_video. Create more content in these formats.

🔴 **[Content]** Viral content on TikTok is: short_video. Create more content in these formats.

🟡 **[Engagement]** Comments-to-likes ratio is low. Try asking questions, running polls, or creating discussion-worthy content.

🟢 **[Timing]** Not enough data per time slot to recommend posting hours yet. Keep adding weekly exports.

🟢 **[Platform]** Instagram is outperforming industry benchmark by 17.2%! Keep up the great work.

🟢 **[Platform]** TikTok is outperforming industry benchmark by 6.7%! Keep up the great work.

🟢 **[Growth]** Instagram reach is growing! Keep up the momentum.

🟢 **[Growth]** TikTok reach is growing! Keep up the momentum.

🟢 **[Methodology]** Note: Instagram engagement rate uses reach as denominator; TikTok uses views. Direct rate comparison between platforms should be interpreted with this in mind.
