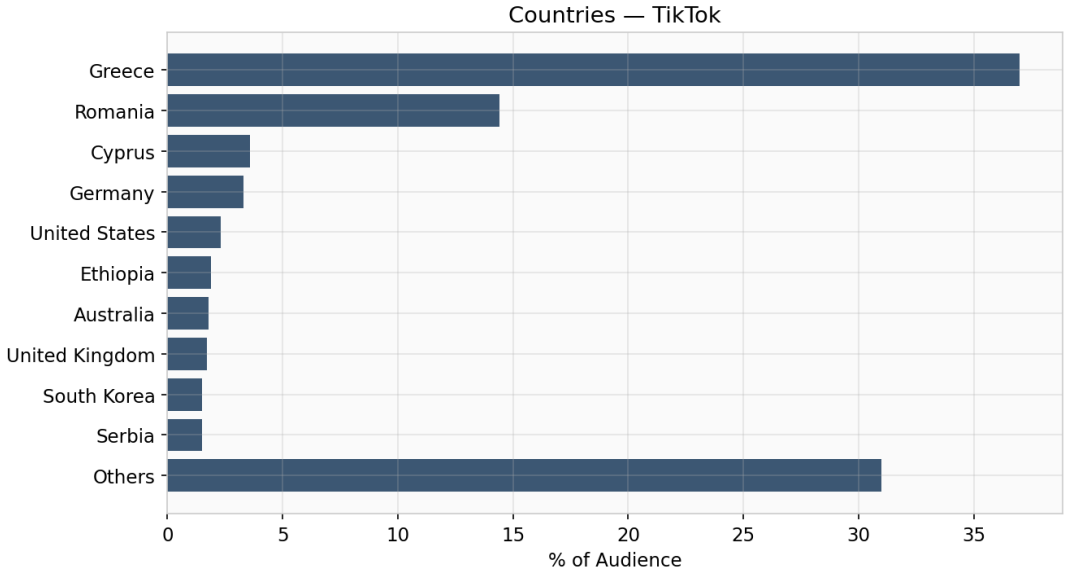
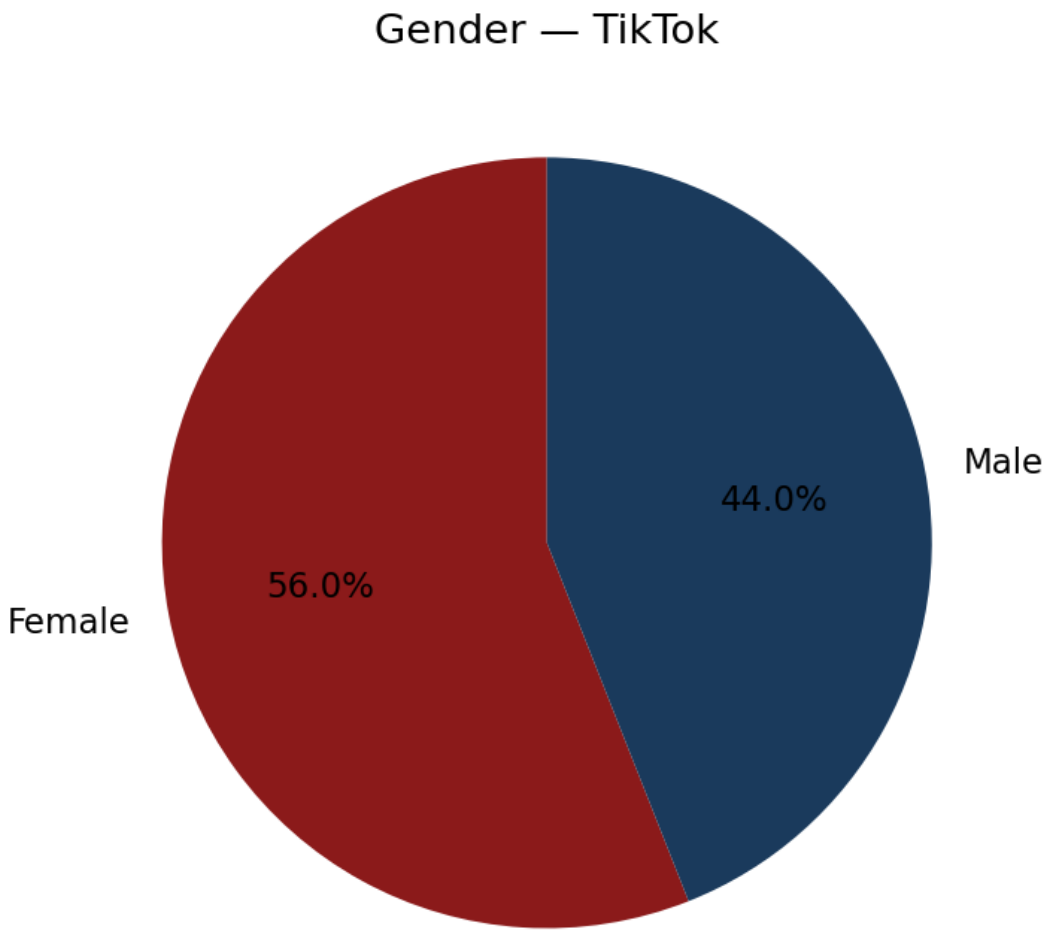
👥 Audience

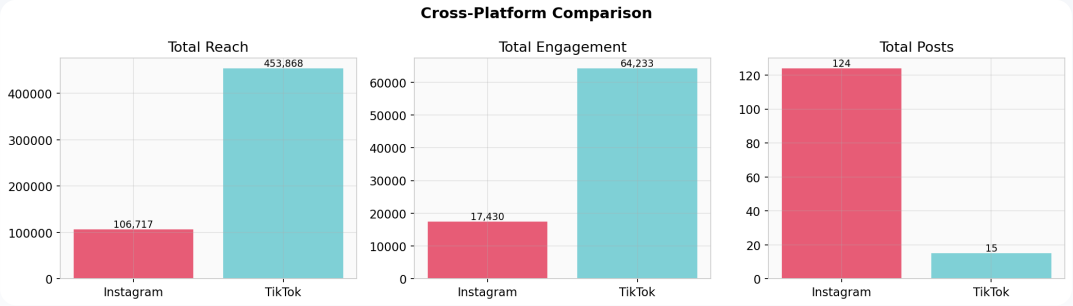




🕐 **Peak hours:** 21:00 (924 active), 22:00 (894 active), 20:00 (869 active)

🔄 Cross-Platform Comparison

⚠️ **Note:** Instagram rate = interactions ÷ reach. TikTok rate = interactions ÷ views. Different denominators — not directly comparable.



Platform	Posts	Reach	Engagement	Avg Rate	Benchmark	vs Bench
📸 Instagram	124	106,717	17,430	18.5%	2.0%	+16.5%
🎵 TikTok	15	453,868	64,233	9.7%	2.5%	+7.2%

💡 Recommendations

🔴 **[Content]** On Instagram, your best content type is 'short_video' with 19.6% avg engagement (19 posts). Create more of this.

🔴 **[Content]** On TikTok, your best content type is 'short_video' with 9.7% avg engagement (15 posts). Create more of this.

🔴 **[Timing]** Your best posting hour is 10:00 KST (based on 11.0 posts). Schedule high-priority content around this time.

🔴 **[Growth]** TikTok reach is declining. Consider boosting posting frequency or trying new content formats on this platform.

🔴 **[Content]** Viral content on Instagram is: short_video. Create more content in these formats.

🔴 **[Content]** Viral content on TikTok is: short_video. Create more content in these formats.

🟡 **[Timing]** Best performing day is Wednesday. Consider making this your primary posting day.

🟡 **[Engagement]** Comments-to-likes ratio is low. Try asking questions, running polls, or creating discussion-worthy content.

🟢 **[Platform]** Instagram is outperforming industry benchmark by 16.5%! Keep up the great work.

🟢 **[Platform]** TikTok is outperforming industry benchmark by 7.2%! Keep up the great work.

🟢 **[Growth]** Instagram reach is growing! Keep up the momentum.

🟢 **[Methodology]** Note: Instagram engagement rate uses reach as denominator; TikTok uses views. Direct rate comparison between platforms should be interpreted with this in mind.
